

SQUIRE STAINLESS

RESIDENTIAL SIZE INDIRECT WATER HEATER

KEY FEATURES

- Storage capacities from 130-305 litres, up to 500 litres on heat pump range
- Duplex Stainless-steel construction
- Twin thermostat factory fitted (2 on twin coil models)
- Standard immersion heaters(S)
- In the box unvented kit and expansion vessel included
- Up to 6 bar working pressure

Lochinvar Squire stainless steel indirect water heaters

The Squire stainless residential range is available in three versions and can be used in domestic or small commercial applications.

- Single coil models are suitable for connection to a heating boiler or solar thermal system, they include as standard 2no immersion heaters which can be used for backup to support a solar thermal system.
- Twin coil models are suitable for connection to both a heating boiler and solar thermal system, included is a single immersion heater.
- Heat pump models feature a large internal coil to extract as much heat as possible from the heat pump system.
